Slovak Botanical Society SAS

---

*The International Lichenological Seminar*

**CENTRAL EUROPEAN LICHENS – A BLEND OF BIOGEOGRAPHIC ELEMENTS**

*dedicated to the 80<sup>th</sup> anniversary of RNDr. Ivan Pišút, DrSc.*

Date: 17<sup>th</sup> of March 2015 (Tuesday) at 13.00

Place: Institute of Botany SAS, Dúbravská cesta 9, Bratislava (meeting room)

Under the auspices of Mgr. Anna Guttová, PhD., director of IB SAS

Organizers: Working group *Cladonia*, Systematic botany and geobotany section of SBS SAS

**PROGRAMME**

**13.00 Opening** (Alica Košuthová)

**13.05 Welcome speech** (Anna Guttová)

**13.30 Ivan Pišút octogenarian** (Jiří Liška)

**Keynote presentations:**

**13.45** SERGEY YA. KONDRATYUK: *Newly discovered lichens in Europe.*

**14.00** ANNA GUTTOVÁ: *Remarkable phytogeographical elements of lichen biota in Slovakia.*

**14.15** EDIT FARKAS, LÁSZLÓ LŐKÖS: *Phytogeographical elements in the Hungarian lichen flora.*

**14.30** LUCYNA SŁIWA, URSZULA BIELCZYK: *Recent lichen studies in the Polish Carpathians – source of biogeographic data.*

**14.45** ZDENĚK PALICE: *Remarkable phytogeographical elements of lichen biota in Czech Republic.*

**Presentations:**

JOZEF HALDA: *Notable lichen records from South Moravia.*

MÓNICA SINIGLA, LÁSZLÓ LŐKÖS: *New occurrences of protected Cetraria species in Mt. Bakony, Hungary.*

NÓRA VARGA, EDIT FARKAS: *New floristic records of the lichenicolous fungi in Hungary.*

MARTIN BAČKOR: *Lichens as model organisms in biological and ecological research.*

PEKSA ONDŘEJ, JANA STEINOVÁ: *Biogeography of Asterochloris photobionts with emphasis on their European distribution.*
